

16

This is my written objection to the deposition that the plaintiff is trying to schedule, I gave them notice that from January 15 I would not be available until May 1, this email was sent on December 5 2024, then on January 14, 2025 then say this in an email "We are not inclined to reschedule Dan Brassard's deposition at this time, meaning we are no longer interested in taking Dan's deposition" now here we are on February 27 2025 they've changed their mind. I will not be attending the deposition they wish to conduct for the following reasons although I know they are entitled to one. However being Pro Se they think they can run me over because I don't know any better.

-They know/knew I'm not available from January 15- May 1

-They've stated they are no longer interested in taking my deposition January 14, 2025

- They've failed to give me 14-day notice. Filed February 27, 2025 and want me March 11, 2025

This is yet again the plaintiffs trying to interfere with my daily work/business and interfere with me providing for my family during my most busy/productive months.

The emails are attached as proof and my duces tecum responses again even though they've received them in October of 2024.
